

Brock Engineering, LLC

Natural Gas Storage School

November 1-3, 2022

MGRRE Facility, WMU

Kalamazoo, Michigan

Who should attend:

This course is for engineers and geologists in the natural gas storage industry who want to deepen their understanding of storage fields, storage operations, risk management and best practices. This course will qualify for 22 Professional Development Hours (PDH).

Instructor:

Timothy J. Brock, PE, Brock Engineering, LLC

Topics Will Include:

- Gas Storage Basics/Reservoir Drive Mechanisms and How They Impact Storage
- Review of Cores from Storage Formations
- New Field Development/Understanding Existing Fields
- Reservoir and Wellbore Integrity/Construction
- Inventory Verification/Deliverability Prediction
- Optimization and Impairment Causes/Remediation
- Well Logging to Verify Wellbore Integrity
- Risk Management—Corporate Safeguards and Regulatory Compliance
- Guidance Documents: API RP1170 and API RP1171
- Current and Pending State and Federal Regulations
- Exercises and Round Table Discussions to Reinforce the Topics
